Superlative Online testing platform with AI Proctoring

IoT, RFID, GPS for schools

**Your one-stop solution for Complete School Automation Services.
Our 'Services' model ensures 'Value add' is delivered to you effortlessly & seamlessly**

A state of the art
platform
for versatile Online
testing across genres

Take Any Test

(Online Tests, Analytics,
AI-Proctoring)

Calibrated Randomisation

While creating randomised question sets manually for up to 4 sets of question papers has been done before, what if we tell you that our system lets you achieve the following:

- All 40 students receive unique question paper
- All 40 question papers conforms to the same calibrated criteria.

NQL- Next Question Logic

- A proprietary algorithm makes our Online tests throw a question to users based on the purpose of the examinee, from a Learner mode to a Testing mode.
- The sequence & selection of the question makes our platform highly effective for the holistic development of student/test-takers.

AI Proctored Exams

- Our AI engine verifies the user's face & detects movements or sounds during the exam window.
- Also detects instances like No face, multiple faces
- Also detects if multiple tabs are opened during the exam.
- It is programmed to throw alerts to the examinee & the proctor for potential proctoring violations.

Result Analytics

Proctor Results:

- Post exam, the proctor results can be downloaded in pdf format.
- Proctor also records the visuals /snapshots of the candidate while appearing for the exam.

Result Insights:

- Section wise performance in graphical format
- In-depth and multivariate analysis of the examinee's performance is captured in the performance analytics

HR - INFINITY

(Recruitment to Retirement HR Suite)

Human Resources Management System (HRMS)
automates HR processes.

Recruitment Management

Vacancy detection based on the critical drivers & AI matched CVs to vacancies powers our recruitment module. The built-in video feature for interviews with rich UI with relevant question bank for the interviewer /interview panel seamlessly accelerates the recruitment processes.
