Learning Management System

Intuitive UI/UX

Study Material Types & Formats

Review & Rating

Comprehensive Reporting

- LMS organizes student learning resources for easy access across all formats and media.
- Allows viewing, evaluating, reminding, messaging, and downloading homework or worksheets.
- Enables teachers to assess and annotate student worksheets online, without downloading.
- Restricts study material download, offers offline access/printing, and allows schools to enable 'view only' mode for content protection.
- It features a clear UI, easy search filters, and ensures content confidentiality.
- Supports multiple formats and types of study material. Students can review and rate materials.
- Teachers can upload content and view feedback for quality improvement.
- The system offers comprehensive reporting.
